

# CREW CALL

An important change to the way we  
run our event

# What is Crew Call

- Crew Call are your main contact point for racing.
- They will advise you when you need to boat
- They will take you through control commission
- They will help you with any racing related issues you have on the day
- They are responsible for the Safety and Smooth Operation of the Build Area

# Why are they there?

- Due to a very busy programme, they liaise with race control to ensure the appropriate boats are on the water at the correct time.
- SAFETY – We must maintain clear access for emergency services and prevent incidents involving other people attending the regatta.

# For all Coaches

- Please attend the crew call meeting on the morning of the regatta and meet the crew call team (They are really nice people!).
- Please advise all of your personnel and crews attending the event of the importance of the role of Crew Call and follow their instructions without delay.
- This is all about safety and making sure everyone enjoys their day!
