

To All Members And Parents - A Once In A Lifetime Opportunity For Runcorn Rowing Club

Bridge Cottage

The Club was founded in 1894. In 1903 our predecessors had the foresight to purchase the Club's existing land to ensure the Club's future. Over the past few months, the Club Committee have been negotiating with British Waterways (BW) over the possible purchase of Bridge Cottage and its land.

Negotiations have developed rapidly recently and the current position is as follows:

1. BW will sell the cottage and land to the Club (off-market) for £85,000 without any restrictive covenants.
2. British Rowing has pledged half of this if the sale can be made before the end of the current grant round (March 31st). This is not definite but probable. This means that RRC must raise £42,500 before that date.
3. The Club has applied for planning permission for change of use from a dwelling house to use ancillary to the Rowing Club.

There are several benefits to the Club for this purchase:

1. Increased security – we could fence and gate the end of the approach road and use the land for storing trailers etc. All of this land and premises would then either be owned or leased by the Club.
2. Short term use for Committee/Social use freeing more room in the Clubhouse for training.
3. Potential for long term future expansion – just as our predecessors did in 1903.

So, what next?

The Club is asking its membership to make donations or to enter into an interest free loan agreement of shares in units of £500 for a term of seven years. Details and an application form are on the reverse.

If you make a donation to the Club and pay income tax at the standard rate then the Club can claim Gift Aid (currently 28%) on any donations made. Gift Aid forms can be downloaded from

In addition, other avenues of funding are being explored. Hopefully this will reduce the amount needed from Club members.

A small sub-Committee is actively pursuing partnerships with local and National firms to aid with future boat and equipment purchases.

Overall

This is a once in a lifetime opportunity for the Club to secure its long-term development.
